MTN 94. Solid Colors. Matt paint, low pressure, high coverage and fast drying times.
400 ml, 11 Oz, 312 g

GENERAL DESCRIPTION

This is a spray paint with a matt finish. It is made with next generation modified alkyd resins and has been developed to meet the highest demands from the graffiti and fine arts market, and is also adaptable to the needs of interior and exterior decoration. Designed and formulated with the highest quality products, with the focus always being on color consistency, fast drying, and without forgetting respect for the user and the environment. Its name is in honor of the year in which the company was founded.

FEATURES

- Low pressure.
- Fast drying.
- Good hardening.
- Excellent flexibility.
- Strong resistance to scratching once the film is polymerized.
- Does not contain lead nor other heavy metals.
- Good covering capability.
- Color durability.
- Easy to apply and repaint.
- Very good resistance to the sun and rain.
- Very good resistance to UV light (see chart).

INSTRUCTIONS FOR USE

- Shake the aerosol well before using, approximately for one minute after hearing the sound of the mixer.
- Apply to clean, dry surfaces. On rusty metallic surfaces remove rust with a wire brush and prepare an anti-rust primer if considered necessary. Apply an anchor layer on plastics and polyesters.
- For best results apply in thin layers. Three thin layers are always better than one thick one, and may be repainted within fifteen minutes with the same paint.
- Turn the aerosol upside down to clean out the valve after use.
If the nozzle becomes blocked replace it with a new one.
- Never apply to equipment that is plugged in and use in well ventilated areas.
- Request safety datasheets.
